

Not-For-Profit Organizations

DONOVAN

Certified Public Accountants *and* Advisors

Executive Summary

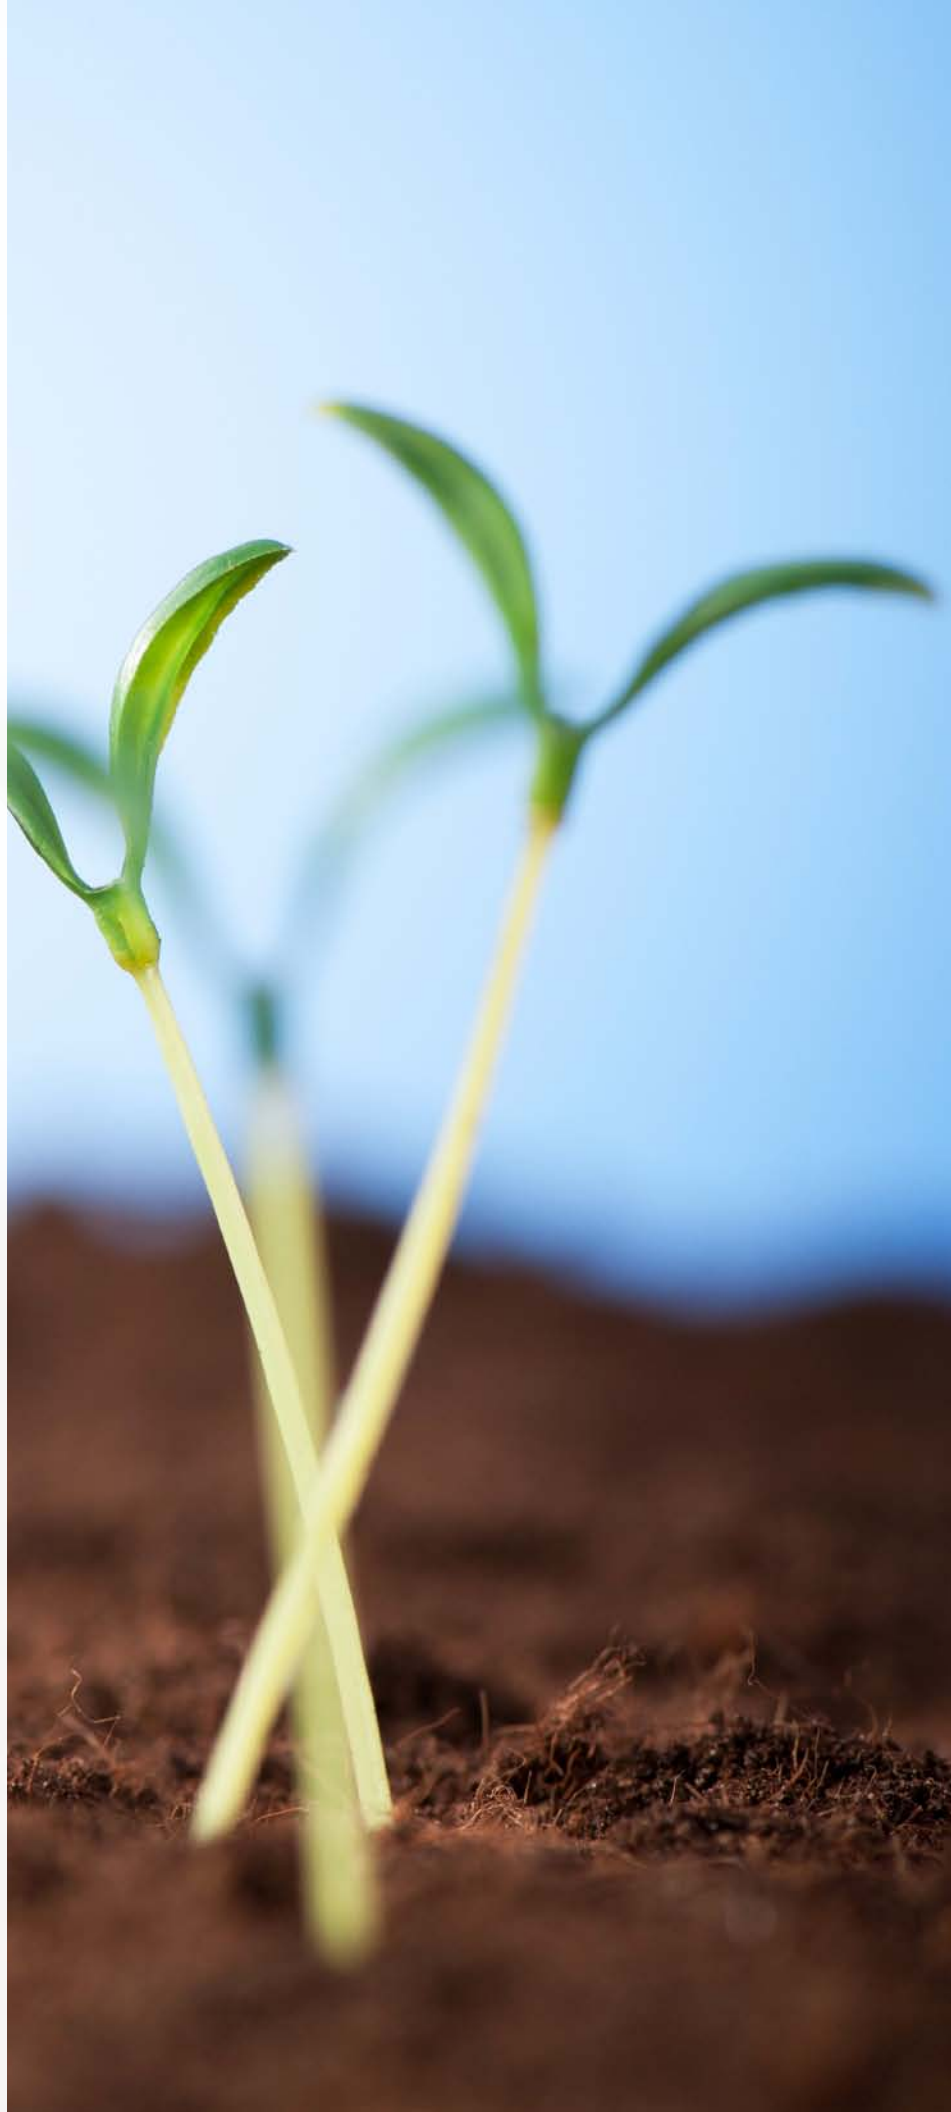

Not-for-profits and government agencies are constantly asked to do more. They are challenged to increase the breadth of their services, improve quality, and perform efficiently and effectively often with fewer resources.

Financial statements tell stories to an informed reader. They send messages about the financial integrity of an organization, and can act as a compass providing insight into the direction the operations are heading. While every entity provides a valuable function, their mission's long-term success is dependent on operating with a solid financial foundation.

In addition to your accounting, tax and financial reporting needs we can assist with grant writing. Our professionals have helped clients prepare and submit grants to obtain funding when possible. We understand the challenges and risks facing not-for-profit organizations and government agencies.

Whether you are seeking basic support to keep the doors open, a cost-effective tax advisor, assistance with internal controls, or advice on independence matters, we will design a support program to address your needs.

TIMELY & ACCURATE ENGAGEMENTS

We work to complete projects on time and on budget by using experienced staff and proactive communications. Our professionals conduct thorough pre-engagement communications to allow your staff sufficient time to gather necessary records.

We work to minimize disruption to your office during our efforts. Whether we are conducting an audit, preparing taxes, or providing assistance with accounting, budgets, grants, internal controls or other advisory services, we ensure our efforts are focused on meeting the planned timelines and deadlines. Timely engagement delivery is a critical part of our success.

MORE THAN JUST ACCOUNTANTS

Our in-house professionals can perform special services a typical accounting firm cannot provide. Many firms provide basic financial statement, tax, and accounting services, but what separates us from other firms is our ability to add the extra support if and when needed. Fraud services, grant assistance, internal controls, and part-time controllership are examples of the broader support Donovan offers. We look forward to customizing a support program for your organization.
